STEREO WORLD

★ Canadian Wilderness in 70mm 3-D
★ J. J. Reilly Part II — Yosemite

NATIONAL STEREOSCOPIC ASSOCIATION

NSA Regions

The N.S.A. has been divided into 12 geographic regions with a Regional Director assigned to each to act as the representative in your area. We hope members will work with them to promote the N.S.A., increase membership and establish regular regional meetings. There are no regional divisions for Canada at this time. Once the United States regions have been well established, then we hope to do the same for our Canadian and other non-U.S. members.

Tom Rogers, Vice President for Regional Affairs
1111 12th St., Huntsville, Tex. 77340

Regional Directors

COVER:

A section of test footage made near Lake Superior for the 70mm 3-D film "Wilderness". One of several serious efforts at high quality 3-D film innovations in Canada, this one was made for the new science museum in Sudbury, Ontario and is the subject of an article by Don Marren in this issue. Photo—Versafilm Ltd.
