NEW CENTER FOR PHOTO HISTORY

This new three level 73,000 square foot study center will contain the collections of the International Museum of Photography at George Eastman House. Scheduled for completion sometime in October 1988, the 7.4 million dollar climate-controlled building is the result of a national effort to keep the museum's huge collection intact and in its present home of Rochester, New York. Two of the new building's three lev-

els will be below ground, and the scale and design of the above ground portion will complement the style of George Eastman House itself.

The IMP has amassed one of the world's most important collections of photographic material: a comprehensive collection of photographic prints and negatives totaling nearly 600,000 along with 6,000 films, 3,000,000 movie publicity stills,

25,000 books on photography, and about 11,000 cameras and related items of photo and cinema technology. The IMP also publishes *Image*, a historical journal of photography and motion pictures. For membership information or exhibit schedules, contact International Museum of Photography at George Eastman House, 900 East Ave., Rochester, NY 14607. ■

TWO NEW PHOTOGRAPHICA MAGAZINES LAUNCHED

Full of 1988 will see the introduction of two new commercial magazines devoted to the interests of those collecting vintage cameras, equipment or images. *Photique* will be a national publication focusing exclusively on antique, classic and quality used equipment with features on cameras, tips to collectors, and an extensive classified advertising section with over 40 categories. Classified rates will be 20¢ per word, and an eight point rating system of camera condition will be used. There will be a category for "Stereo Equipment & Images for Sale" (#35) and one for "Stereo

Equipment & Images Wanted" (#36). Drawer numbers will be available for sellers wishing to maintain privacy, and *Photique* will arrange to act as a selling, packing and mailing agent for those unable to be involved in the selling process.

Photique will be published ten times a year and mailed first class at a subscription rate (U.S.) of \$20.00 per year. For a detailed brochure, write to *Photique* Magazine, One Magnolia Hill, West Hartford, CT 06117.

The Historical Camera will be aimed at photographica collectors in the Pacific Northwest, and will also

include feature articles on cameras and equipment as well as a classified advertising section. The editors are inviting collectors everywhere to submit scholarly, original articles on any topic relating to collectible photographica. (Length should not exceed 20 typed, double spaced pages and eight 3 1/2 x 5" photos.) *The Historical Camera* will be published three times a year (starting in fall '88) and available for \$16.00 a year (U.S. & Canada) from Historical Camera Publications, Box 90, Glead Station, Yakima, WA 98904. ■
