# Library Report

## Computer Update

All of our Publications, Books and Articles in the library have now been entered into the computer. We will be starting on the stereo view collections as soon as we have completed the form to be used. We recently acquired a 1909 Keystone Catalog with about 5,000 negative numbers and titles, arranged geographically. We have put this listing on the computer and now have a numerical listing of all of these titles and numbers. We have decided to keep our Keystone views as a separate collection filed in numerical order. When both collections are completed, we should have a listing of several thousand Keystone views.

## 1988 Convention

Our special thanks to Brandt Rowles for being the "official photographer" at our 1988 Convention in Cincinnati, and for doing such a nice job for us. For the first time, we have a complete record of all of the activities from start to finish. Brandt also donated all of the film and the processing of it.

## Library Visitors

New members, Robert and Lucille Solot, from Princeton, N.J., were in the neighborhood recently and stopped to spend some time at the library.

Marty and Chad Leyshon from Silver Spring, Md., also spent an afternoon with us. They brought with them some very nice 35mm slides of the 1987 King of Prussia Convention and a 35mm Stereo-Tach beam-splitter and viewer, plus several stereo views. We are most appreciative of their gifts to the library.

## Latest Acquisitions

We are grateful to the following members for their gifts:

David R. Johnson - Contemporary Stereo Prints

Craig Daniels - Contemporary print of Pat Schroeder and Rollei Stereo Projector

Freeman Hepburn - *Man with Camera* by Felix H. Man and 3D Catalog

Ray Holstein at the Oliver Wendell Holmes Library Computer.
